

Carpet & Upholstery Cleaning Concentrate 10X

BIO-SYSTEMS
INTERNATIONAL

Product Description

BIOBUG® CS contains a specially formulated range of adapted high-performance microorganisms developed for cleaning and degrading blood and organics from carpeting and upholstery. As well as microorganisms, BIOBUG® CS contains surface tension depressants and penetrants which loosen and liquefy heavy deposits, thereby assisting in their biodegradation.

When used as directed BIOBUG® CS is safe. It is harmless to people, clothing and the environment and is completely biodegradable.

EFFECT

BIOBUG® CS contains powerful bacteria and enzymes that biodegrade grease, blood, and organic deposits in your upholstery and carpeting. This product deep cleans soiled areas completely removing stains. BIOBUG® CS carpet cleaner is efficient when alone as a spot cleaner or with a steam cleaner.

Selected from their natural environment, this combination of microorganisms and surfactants have been designed & adapted to give optimum performance in degrading greases, blood, oils, and other organic material deposits.
